

VIBRATION CONTROL

ADVANCED VIBRATION ISOLATION SOLUTIONS

Designed to reduce noise, absorb shock and protect HVAC/R systems for longer life and greater reliability.

REDUCES NOISE

Minimizes vibration and structure-borne noise

EQUIPMENT PROTECTION

Absorbs shock and vibration to extend equipment life

STRONG & DURABLE

High quality materials for reliable performance

EASY INSTALLATION

Designed for quick and hassle-free installation

1 HANGERS

- ▶ Spring Hanger
(Deflection: 25-100mm)
- ▶ Rubber Hanger RH

2 FLEXIBLE CONNECTORS

- ▶ Single Sphere Rubber Flexible Connector (flanged)
- ▶ Double Sphere Rubber Flexible Connector (flanged)
- ▶ Threaded Rubber Flexible Connector
- ▶ Braided SS Expansion Joint (threaded and flanged)
- ▶ Un-braided SS Expansion Joint (threaded and flanged)

3 SPRING MOUNTS

- ▶ Free Standing Spring Mount
(Deflection: 25-100mm)
- ▶ Restrained Spring Mount
(Deflection: 25-100mm)
- ▶ Housed Spring Mount

4 RUBBER MOUNTS & PADS

- ▶ Waffle Rubber Pad
- ▶ Ribbed Rubber Pad
- ▶ Rubber Mounts with Combination of Rubber and Metal

APPLICATIONS

HVAC & Air Handling Units

Pumps & Compressors

Chillers & Cooling Towers

Fans & Blowers

Piping Systems

Industrial & Commercial Installations
