

# FILTERS

High efficiency filtration solutions to ensure clean air, protect equipment, and maintain healthy environments across all applications.

## ALUMINUM FILTER

**Durable Aluminum Frame**  
Corrosion resistant and lightweight

## PRE FILTER

**Improves Indoor Air Quality**  
Captures dust and large particles

## BAG FILTER

**High Dust Holding Capacity**  
Longer life and better performance

## OUR RANGE

- ▶ Aluminum Filters
- ▶ Pre-Filters
- ▶ Bag Filters
- ▶ Laminar flow panel for OT
- ▶ Laminar flow panel for OT
- ▶ Laminar flow
- ▶ Diffuser for Clean Rooms

## LAMINAR FLOW PANEL FILTER

**HEPA Efficiency**  
High efficiency for clean air applications

## LAMINAR FLOW DIFFUSER

**Uniform Air Distribution**  
Ensures even airflow and comfort

**High Filtration Efficiency**

**Reliable Performance**

**Clean & Healthy Environment**

**Easy to Install & Maintain**

## APPLICATIONS

Hospitals & OT Rooms

Clean Rooms & Laboratories

Pharmaceutical Industry

Food & Beverage Industry

HVAC Systems

Commercial Buildings

Electronics Industry

**SUPERIOR FILTRATION**  
Removes dust, pollen, and airborne particles effectively

**PROTECTS EQUIPMENT**  
Prevents dust build-up and ensures longer equipment life

**IMPROVES AIR QUALITY**  
Ensures clean, safe, and breathable environments

**LONG SERVICE LIFE**  
High quality materials for consistent and durable performance
